

The River Valley Area Community Gardens Board of Directors shall set plot fees for each gardening season before application and registration information is forwarded to Gardeners and prospective gardeners. Fees maybe set as early as June / July but not later than October 1.

The Board may decide to offer a discount for first year community gardeners.

Fees shall be based on the estimated expenses and income of the garden, fees of the surrounding community gardens, and the income of the area. Plot fees amount to approximately one third of the operating budget. Fund raisers will be used to cover the additional costs.

Plot fees shall be paid to the Registrar before a Gardener may work their plot unless other arrangements have been made.
